RE: Draft Interim Remedial Action Focused Field Investigation  
Report, Operable Unit 4, Naval Training Center Orlando.

Dear Mr. Hansel:

I have completed the technical review of the subject document, dated November 1996 (received November 1, 1996). The document appears to adequately define the area of contamination to be addressed by the Interim Remedial Action (IRA) to contain further contaminated groundwater discharge to Lake Druid. Please submit a final copy signed and sealed by a professional geologist.

If I can be of any further assistance with this matter, please contact me at (904) 921-9989.

Sincerely,

  
John W. Mitchell  
Remedial Project Manager
